2023 WJTA Conference & Expo

Technical Program Overview

*Exhibit Space
Available - Contact
WJTA*

Waterjet Technology Basics & Beyond Short Course

When: Monday, October 30

What to Expect: Daylong short course offering an applied introduction to waterjetting and an in-depth treatment of key topics. Suitable for anyone with interest in high pressure applications

Boot Camp Sessions

When: Tuesday, October 31 - Wednesday, November 1

What to Expect: Hard-hitting, half-hour seminars covering a variety of timely topics of interest to contractors and suppliers

Asset Owner Sessions

When: Tuesday, October 31

What to Expect: Educational sessions designed for asset owners – the plants and facilities who are the end-users of industrial cleaning services. Intended for plant safety, maintenance, turnarounds, and operations personnel but open to all attendees

Panel Discussion

When: Tuesday, October 31

What to Expect: Contractors, asset owners and OEMs discuss challenges and timely issues affecting the industry; specific topics to be announced

Conference Papers

When: Tuesday, October 31 - Wednesday, November 1

What to Expect: Research, case studies, and whitepapers from industry and academia covering new developments in fluid-jets, industrial vacuuming and industrial cleaning

Pre-conference: Oct. 30
Conference & Expo: Oct. 31-Nov. 1
Morial Convention Center
New Orleans, Louisiana
